

# Option 1 – WITS Early Implementation Track

**Benefits of Participating in the WITS Early Implementation Track**

- Provider staff will have multiple opportunities to attend seminars specific to their job functions (clinical staff, billing staff, office staff) prior to the Statewide Training.
- Provider staff will be able to utilize the different modules in WITS at a slower pace. For example, Core Training is separate from Billing Training (training will be time intensive **prior** to July 1, 2013).
- Provider staff will be comfortable with billing in WITS two months before the July 1, 2013 deadline.
- Provider staff trained during the pilot period can train additional agency staff if needed.
- Provider staff will have access to one-on-one (phone and online) training with the WITS Help Desk Staff during and after the July 1, 2013 deadline.
- Provider staff will have the opportunity to provide feedback on how to enhance processes within the WITS system.
- The statewide training can be attended as a refresher course.

# Option 2 – WITS Self-Guided Track

**Benefits of Participating in the WITS Self-Guided Track**

- Providers will self direct their agency readiness.
- Providers will prepare at their own pace (training will be time intensive **after** July 1, 2013).
- Provider staff will have opportunities to attend seminars specific to their job functions (Agency Administrator, clinical staff, billing staff).
- Provider staff will have access to one-on-one (phone and online) training with the WITS Help Desk Staff during and after the July 1, 2013 deadline.
