

WITS Changes – 17.4.0 Release (Mental Health)

11/7/2014

In the 17.4.0 Release 7 bugs were repaired in WITS. Below are a summary of the errors and the resolutions of the problems.

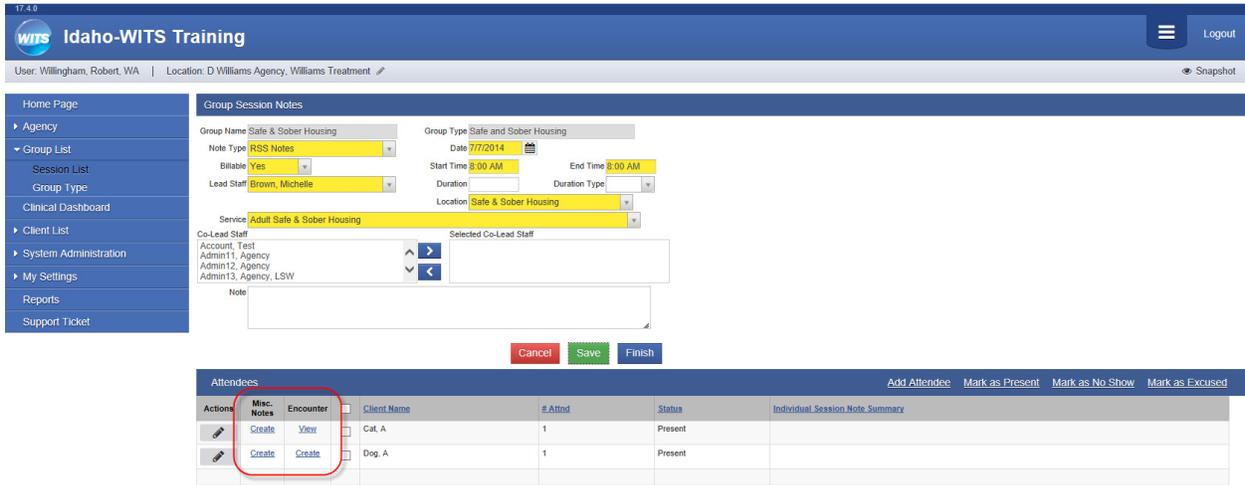

- 1) Admission: Completed activity incorrectly showing as In progress. **Resolution:** The issue where the completed activity for Client's Admission is showing as In Progress has been resolved.
- 2) Alerts: Several issues with view all in agency and view all supervisee alerts. **Resolution:** Alert messages are now displaying messages that are determined by the change that occurred.
- 3) Claim Item List: Slow performance searching by Add-On Level. **Resolution:** To improve performance when searching by 'Add-On Level', results are now returned based on the 'Add-On Level' of the Service on the claim item. Previously, the 'Add-On Level' search parameter would additionally consider whether or not a claim item for a 'Primary' Service had an associated 'Add-On' in order for it to be returned as 'Primary'.
- 4) Misc. Note: The 64 character limit was not being enforced and users are getting an 'Insert Failed...' error. **Resolution:** The Misc. notes screen no longer allows users to enter more than 64 characters in the 'Summary' field.
- 5) Court Monitoring: Users are getting an 'Update Failed...' error for Case Number & Location of Client fields where the entered face is over 25 and 100 characters respectively. **Resolution:** There has been a limit of 25 characters added to the 'Case Number' field and a 100 character limit to the 'Location of Client' Field.
- 6) System Wide: Multiple Wrapping and Spacing Issue. **Resolution:** A series of wrapping and spacing issues related to the new UI have been resolved.
- 7) Diagnosis: Expired codes are showing up in the 'Diagnosis' drop down box. **Resolution:** Expired codes will no longer appear in the 'Diagnosis' drop down boxes.

Below you will find a summary of the change to WITS for the 17.4.0 release (which took place November 12, 2014). When these changes are made in Idaho-Mountain and Idaho-Pacific, the top left portion of your screen will say 17.4.0.

Group Notes

The following changes have been made to the Attendee List on the Group Session Notes screen:

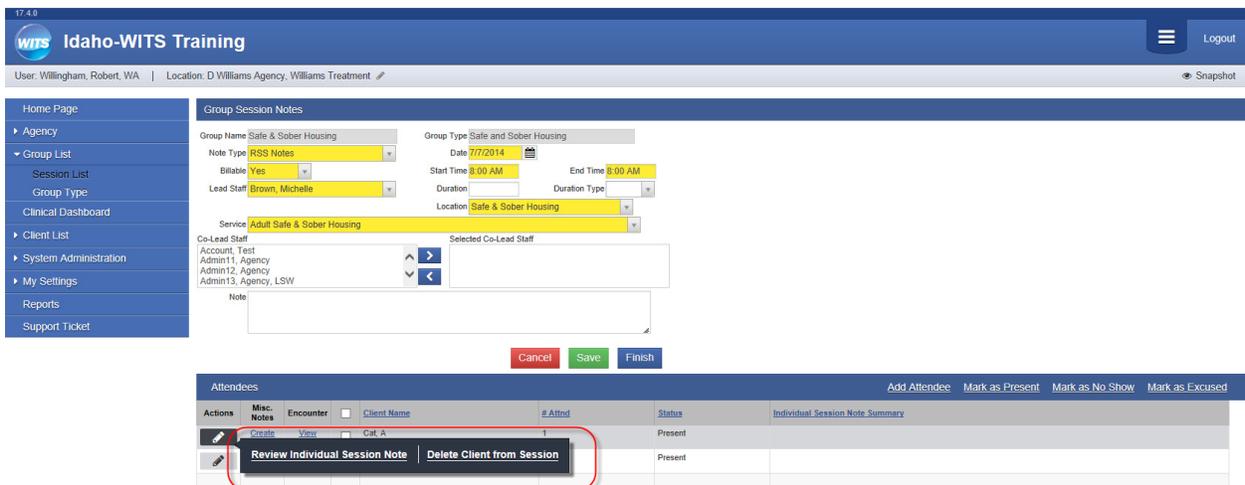

- 1) The 'Create' and 'View' links for Miscellaneous Notes and Encounters now appear without having to hover over the pencil icon to see them.

The screenshot shows the 'Group Session Notes' form and the 'Attendees' table. The form fields include Group Name, Note Type, Date, Start/End Time, Lead Staff, Duration, Location, Service, and Co-Lead Staff. The Attendees table has columns for Actions, Misc. Notes, Encounter, Client Name, # Attnd, Status, and Individual Session Note Summary. The 'Create' and 'View' links for Misc. Notes and Encounters are highlighted with a red circle.

Actions	Misc. Notes	Encounter	Client Name	# Attnd	Status	Individual Session Note Summary
	Create	View	Cat. A	1	Present	
	Create	Create	Dog. A	1	Present	

- 2) Changed the 'Review' action to 'Review Individual Session Note' and changed the 'Delete' action to 'Delete Client from Session'.

The screenshot shows the 'Group Session Notes' form and the 'Attendees' table. The form fields are the same as in the previous screenshot. The Attendees table has columns for Actions, Misc. Notes, Encounter, Client Name, # Attnd, Status, and Individual Session Note Summary. The 'Review Individual Session Note' and 'Delete Client from Session' actions are highlighted with a red circle.

Actions	Misc. Notes	Encounter	Client Name	# Attnd	Status	Individual Session Note Summary
	Create	View	Cat. A	1	Present	
	Review Individual Session Note	Delete Client from Session			Present	

- 3) The 'Individual Note Summary' column header has been changed to 'Individual Session Note Summary'.

System Access

A new role has been created, named "Program Set Up" role. The new "Program Set Up" role has been added and only WITS Admin will inherit this role. This role can be assigned by WITS Administrator or Agency Administrator. All existing users with Facility Administrator role will have the Program Set Up role.
