

WITS Changes – 17.6.0 Release (Mental Health)

11/10/2014

In the 17.6.0 Release 6 bugs were repaired in WITS. Below are a summary of the errors and the resolutions of the problems.

- 1) Client Profile: Encountering yellow screen error when reviewing an allergen value that has been expired. **Resolution:** Fixed the yellow screen error that occurred when reviewing an allergen value that has been expired.
- 2) Staff List: Intermittently getting yellow screen error when resetting credentials. **Resolution:** Fixed an issue where users would intermittently get an error when resetting credentials.
- 3) Assessments: Unable to download CAFAS/PECFAS and informational message does not display in new UI. **Resolution:** 1) Informational message is now being displayed in new UI 2) CAFAS/PECFAS can now be downloaded.
- 4) Support Ticket: Change label from 'yellow page' to 'error screen' **Resolution:** 'yellow screen' is replaced with 'error screen' both in the interface and database.
- 5) Scheduler: Values get cutoff in 'Procedure' dropdown box when an extremely long Description exists in 'Procedure' code table. **Resolution:** Fixed the issue where the values are being cutoff in 'Procedure' drop down box when a long description exists. The value no longer goes off the screen.
- 6) My Settings: Change Password/PIN: Users are unable to cancel. **Resolution:** Users now have the ability to cancel out of a Change Password/PIN process.

Below you will find a summary of the change to WITS for the 17.6.0 release (which took place November 12, 2014). When these changes are made in Idaho-Mountain and Idaho-Pacific, the top left portion of your screen will say 17.6.0.

Court Monitoring

The Court Monitoring Type of 16-2414 has been corrected in the dropdown. It had previously incorrectly been listed as 16-2514.

Encounter

The Diagnosis list has been turned on and the diagnosis will be pulled forward to encounters from last created diagnosis.

The screenshot shows the Idaho-WITS Training web application. The top navigation bar includes the WITS logo, the text "Idaho-WITS Training", and a "Logout" button. Below the navigation bar, the user information is displayed: "User: Willingham, Robert, WA" and "Location: IDHW, DBH, Region 4, Boise". A "Client" dropdown menu is open, showing "Client: Testing, 17.3 CMH | 208012080000304 | 1" and a "Clear Client" button. The left sidebar contains a menu with various options, including "Home Page", "Agency Contacts", "Client List", and "Assessments". The "Diagnosis List" option is highlighted with a red circle. The main content area displays a table titled "Diagnosis List" with columns for "Actions", "Primary", "Principal Axis III", "Source", "Created Date", "Created By", and "Updated Date". The table is currently empty.

The Encounter Profile has been update so if there is a clinical supervisor on Staff Profile of the Rendering Staff, that value will default on the Encounter Profile.

The screenshot shows the Idaho-WITS Training web application with the "Encounter" form open. The top navigation bar and user information are the same as in the previous screenshot. The "Client" dropdown menu is open, showing "Client: Testing, 17.2 AMH | 206081800000304 | 1" and a "Clear Client" button. The left sidebar contains the same menu as in the previous screenshot. The main content area displays the "Encounter" form, which includes various fields for note type, service location, dates, and other details. The "Supervising Staff" dropdown menu is highlighted with a red circle, showing "Willingham (Admin Support), Robert" as the selected value. The "Rendering Staff" dropdown menu is also visible, showing "Willingham (Admin Support), Robert" as the selected value. The "Administrative Actions" section at the bottom of the form includes "Cancel", "Save", "Finish", and a "Next" button.
