

## WITS Changes – January 2014 (Mental Health)

2/18/2014

In the January 2014, Rev. 1, 10 bugs were repaired in WITS. Below are a summary of the errors and the resolutions of the problems.

- 1) Client Profile: Generate Report produces a yellow screen error **Resolution:** Resolved the issue where clicking the Generate Report button produced a yellow screen error.
- 2) Client Program Enrollment: Issues in configuration change **Resolution:** Client Program Enrollment: The issues related to the configuration changes in Client Program Enrollment were fixed.
- 3) Client Search: Clear button is not clearing the result set **Resolution:** Clear button now clears up the result set correctly.
- 4) Consent: Verbiage in Criminal Justice Consent is cutoff **Resolution:** Corrected the layout of the Criminal Justice Consent so that the text is no longer being cutoff.
- 5) Group Notes: Do not stop the user from editing the Group Profile because of the Tx domain check for a client that is inactive **Resolution:** Corrected a bug that would stop the user from editing a Group Profile because of the Tx domain check for a client that is inactive. As long as the all client's program enrollments on the Roster has at least 1 Tx domain that matches the Tx domains selected on the group profile, then they can edit the group.
- 6) Assessments: Yellow screen occurs when there is no connection to CAFAS or PECFAS site **Resolution:** On the CAFAS/PECFAS profile screen, a yellow screen no longer occurs when clicking "Perform CAFAS", "Perform PECFAS", or "Download Results" when a connection to the FAS Outcomes site cannot be established.
- 7) Consented Activity List: Yellow page occurs when reviewing a consented Client Profile with the status of "In Progress" **Resolution:** A yellow screen no longer occurs when reviewing a consented Client Profile with the status of "In Progress".
- 8) Reports: Receiving an error message when attempting to run the Adjudication Results Report **Resolution:** The bug that was causing an error message when attempting to run the Adjudication Results Report has been fixed.
- 9) Activity list: Waitlist menu item is missing **Resolution:** Previously with the Agency Waitlist roles, the waitlist menu item was not appearing in the client activity list. This has been fixed.

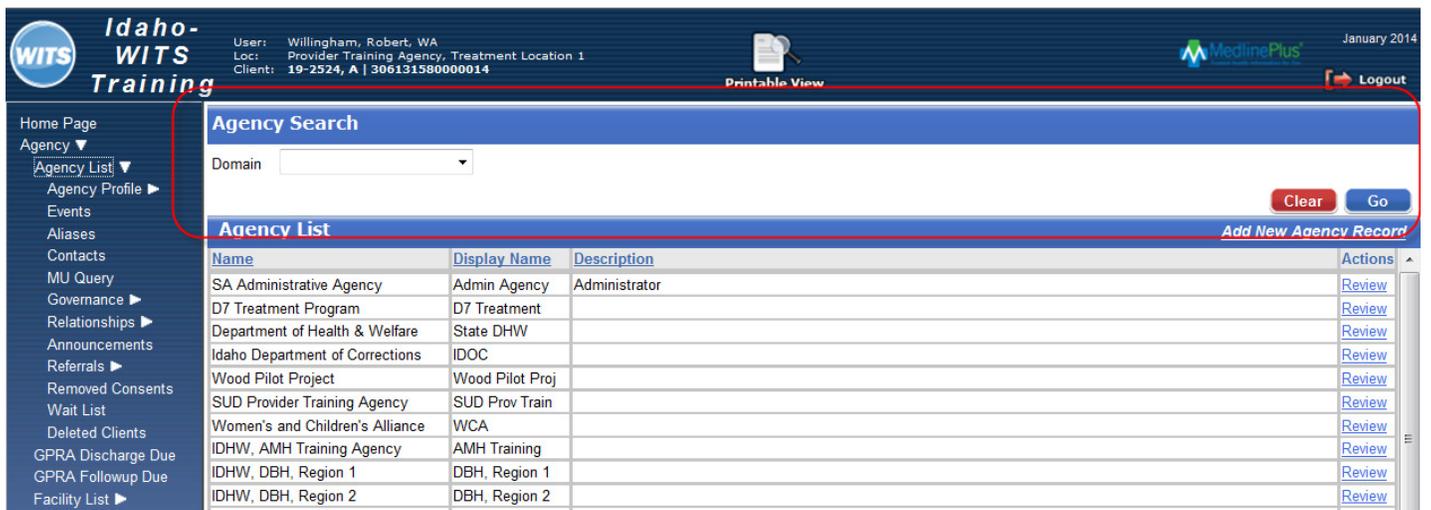

10) Claim Batch: Unable to remove a claim item from a claim batch **Resolution:** Previously when attempting to remove at least 1 claim from a claim batch the system would produce a yellow page and not remove the claim. This has been corrected.

Below you will find a summary of the changes to WITS for the January 2014, Rev. 1 release (which took place February 20, 2014). When these changes are made in Idaho-Mountain and Idaho-Pacific, the top right portion of your screen will say January 2014, Rev. 1.

### Agency List

An Agency Search section has been added to the Agency List Screen with the ability to search for agency's by the domains that they are able to serve.

### Client Group Enrollment

The placement of the Payor Type and Plan Group fields has been swapped. These fields have been moved as the Payor Plans are filtered based on the Payor Type. The Plan Group dropdown will now only display groups that are associated with the selected Payor Type.

## Group Roster

A new "Registered" status has been added to assign to Group Members on the Group Roster screen. A future Status Effective Date can now be entered when a Group Member is assigned this status. After the Status Effective Date has passed, a Group Member with a "Registered" Status can be added to a Group Session; once added the Member's status will automatically update from "Registered" to "Active".
