

Internet Explorer Version

Verifying the Version of Internet Explorer

1. **Getting here:** Open Internet Explorer. The menu bar may be hidden.
2. **Hold the ALT key and left click the mouse at the top of the screen.** Release the ALT Key and the menu bar will temporarily display.

OR

Right click the mouse at the top of the screen and check Menu Bar. Using this option will keep the Menu Bar at the top of the window.

3. Click **Help** and click **About Internet Explorer**.
4. The version will be displayed. Click **Close**.
