

WITS Changes – 17.21.1 Release (SUD)

6/12/2015

In the 17.21.1 Release 8 bugs were repaired in WITS. Below are a summary of the errors and the resolutions of the problems.

- 1) Encounter: Claim Item Rejection Reason not displaying in Details. **Resolution:** Rejection Reason is now displayed in the 'Details' pop-up for a rejected encounter.
- 2) Client Profile -> Generate Report: Client Face Sheet Case Info is repeated several times. **Resolution:** Generate Report: Client Face sheet report case info is no longer repeated.
- 3) Consented Activity List: Error when viewing Client Profile and Intake Transaction. **Resolution:** View properly displays the Client Profile and Intake Transaction.
- 4) Intake: "Did Client Sign ATR Application Form" is now required on the intake screen for ATR. **Resolution:** Did Client sign ATR Application Form? is not required on intake screen.
- 5) Group Notes: Attendee is getting added to roster but not session attendee list. **Resolution:** Fixed an issue where an Attendee was getting added to roster but was not getting added to the session attendee list. Now when clicking "Add Attendee" on the Group Session Notes screen, the user will now be taken to the "Individual Notes" screen where they can pick the client from the roster.
- 6) Group Notes: Missing "# of Units" field and column for creating encounter notes. **Resolution:** The 'Encounter' column is now correctly appearing on the Group Session Notes screen.
- 7) TX Review Profile: "Review Period From" field used to be required. **Resolution:** "Review Period From" field is required and has a date picker now. The value in "Review Period From" field can be saved. 'Time' field next to the Review Period dates is removed.
- 8) Vital Signs Growth Chart: Graphs of height & weight are not populating. **Resolution:** Growth chart link for vital signs is now generating.

Below you will find a summary of the change to WITS for the 17.21.1 release (which took place June 16, 2015). When these changes are made in Idaho-Mountain and Idaho-Pacific, the top left portion of your screen will say 17.21.1.

Encounter

Enable Modality Approved Service rule for SUD encounters. WITS will check when a user releases an encounter note to billing for clients in the Substance Abuse treatment domain that the selected service is approved for the program enrollment modality type.

If the service is approved for the modality of the selected program enrollment, users will not see any difference. If a user tries to release an encounter to billing when the selected service is not approved for the modality of the selected program enrollment, they will receive the error message 'This service is not valid under this treatment program' and will not be able to release the encounter to billing.
