

Why have I not received a payment?

Did you know that the State of Idaho offers a free service for providers who are receiving payments from a state entity? This service will help providers that receive direct deposit the greatest. This service allows providers to create an account based on their vendor number. Once this account has been activated a provider will have the opportunity to view information such as who is the payment from, the warrant number, the amount of check, date of payment, etc. Please visit the State Controller's Office at <http://www.sco.idaho.gov/>. Then select Accounting → Vendor Services for more frequently asked questions and/or guidance.
