

WITS Changes – 17.10.1 Release (SUD) 12/29/2014

In the 17.10.1 Release 3 bugs were repaired in WITS. Below are a summary of the errors and the resolutions of the problems.

- 1) Billing: Provisional voucher error. **Resolution:** Fixed an error that could occur when reviewing a provisional voucher from the provisional voucher menu.
- 2) Intake: Unable to create intake. **Resolution:** Fixed a permission issue for non-WITS Administrators where the Priority Population field on an Intake would be read only but still flagged as required.
- 3) Consents: multiple yellow screens viewing and linking in 17.10.0. **Resolution:** Fixed the yellow screens that occurred while accessing the Linked Consents.

Below you will find a summary of the change to WITS for the 17.10.1 release (which took place December 30, 2014). When these changes are made in Idaho-Mountain and Idaho-Pacific, the top left portion of your screen will say 17.10.1.

Clinical Dashboard

The Clinical Dashboard has been modified to allow for viewing by Primary staff as well as members of the Treatment Team.

A screenshot of the WITS Clinical Dashboard interface. The top navigation bar is identical to the previous image. Below it, a sidebar on the left contains a menu with items like "Home Page", "Agency Contacts", "Agency", "Dispensary", "Group List", "Clinical Dashboard", "Client List", "System Administration", "My Settings", "Reports", and "Support Ticket". The main content area is titled "Clinical Dashboard Search" and includes search filters for "Intake Date Range", "Case Status", and "Modality". Below the filters are sections for "Primary Staff" and "Available Staff" with navigation arrows. A "Display Results For" dropdown menu is open, showing "Primary Staff" and "Treatment Team" as options. Below this is a table with columns for "Actions", "Intake date", "Client Name", "Mission", "Treatment Plan", "Tx plan review due", "Modality", "Last Encounter Date", "Discharge date", "Case Closed", and "Primary Staff". The table is currently empty. At the bottom, there is a section for "Administrative Actions" with a link to "View Feedback Summary".

The Clinical Dashboard Feedback has been modified to allow for viewing and status update of multiple feedbacks rather than just the most recent.

Intake

The "Is client under court supervision?" and "Supervising County" fields have been added to the Intake screen. The "Is client under court supervision?" field is required. If "Is client under court supervision?" is set to Yes, the "Supervising County" field becomes required.

The screenshot shows the 'Intake Case Information' form. The left sidebar contains a navigation menu with categories like Agency, Client List, and Activity List. The main form area is titled 'Intake Case Information' and contains various input fields. A red box highlights two fields: 'Is client under court supervision?' and 'Supervising County'. Other fields include 'Intake Facility', 'Intake Staff', 'Case Status', 'Date of First Contact', 'Intake Date', 'Pregnant', 'Due Date', 'Priority Population', 'HIV Tested?', 'Past IV Drug Use', 'Presenting Problem', 'Inter-Agency Service', 'Inter-Agency Service Selected', 'Domains', and 'Selected Domains'. At the bottom, there are 'Cancel', 'Save', and 'Finish' buttons.

Field	Value
