

WITS Changes – 17.2.0 Release (SUD)

9/19/2014

In the 17.2.0 Release 7 bugs were repaired in WITS. Below are a summary of the errors and the resolutions of the problems.

- 1) Program Enroll: End date can be in the future **Resolution:** Program End Date can now be entered for future dates. Users will get a warning that the End Date is in the future but they will still be able to save.
- 2) Support Ticket: 3 yellow screens errors with duplicated notification email addresses **Resolution:** A yellow screen no longer occurs when creating, editing, or escalating a support ticket when staff accounts that are designated to receive support ticket notification emails have the same email address as each other.
- 3) GAIN-I Summary: The GAIN-I Summary is center justified **Resolution:** The GAIN-I summary report has been reformatted so that body text is left justified and main title and section headers are centered.
- 4) Logon Page: Users can receive yellow page error when an attempt was made to log into WITS **Resolution:** Corrected an issue with the way logins work that could intermittently cause an error when logging into WITS.
- 5) Fee Determination: Fee determination list format is incorrect and Fee Determination Profile is missing part of label **Resolution:** The label of the fee determination profile is changed to 'Fee Determination Profile'. Fee Determination List and the currency fields in Fee Determination Profile shows correct format for dollar amounts.
- 6) Payor Plan: Duplicate payor plan error message is not user friendly **Resolution:** The error message displayed on creation of a duplicate payor plan is user friendly.
- 7) Invoices: Invoice Attestation Issues **Resolution:** Fixed the issue where the user with Invoice Attestation role could not edit the rejected invoice. Also, corrected the issue where the staff without Invoice Attestation not able to bill an invoice if the attestation box has been signed.

Below you will find a summary of the change to WITS for the 17.2.0 release (which took place September 22, 2014). When these changes are made in Idaho-Mountain and Idaho-Pacific, the top left portion of your screen will say 17.2.0.
