

WITS Changes – 17.8.1 Release (SUD)

12/29/2014

In the 17.8.1 Release 8 bugs were repaired in WITS. Below are a summary of the errors and the resolutions of the problems.

- 1) Client Profile: Users were getting a yellow screen error on the "Other Numbers" screen when users are adding multiple contacts. **Resolution:** To prevent the scenario where a yellow screen was occurring when trying to add multiple contacts via the 'Add Contact' link on the Other Numbers screen, this link has been removed. Adding a contact that would be associated with an Other Number can be done prior to coming to the Other Numbers screen.
- 2) Client List: Invalid search criteria on the Client Search screen cause a yellow screen error. **Resolution:** Fixed the yellow screen error that occurred when user entered invalid search criteria on client search screen. It now displays an error message.
- 3) Discharge: 'Living Arrangement' does not pull from last Program Disenrollment. **Resolution:** 'Living Arrangement' is now pulling information from last Program Disenrollment into Status at Discharge.
- 4) Log-In: Incorrect Password or PIN not cleared Upon Account Being Disabled. **Resolution:** Fixed an issue where the user's Password or PIN was not cleared when their account was disabled.
- 5) TX Plan, Staff & Client Profile: 'Cancel' button is not exiting the record completely. **Resolution:** Clicking 'Cancel' from any screen within the Tx Plan, Staff, and Client Profile modules will now bring the user to the corresponding list screen.
- 6) Claim Item: Bill Another Payor link incorrectly appearing for FFSe and Add on Claim items. **Resolution:** The 'Bill Another Payor' link is no longer available on FFSe and Add-On claim items since performing this action on these such claim items would potentially result in double billing.
- 7) Reports - GPRA Interview Compliance Report: (Retest) Issue with compliance/non-compliance data. **Resolution:** GPRA Interview Compliance Report now functions correctly.
- 8) Bill Another Payor: Not available for the claim items billed again CMS 1500 Plans. **Resolution:** Bill Another Payor is now available for claim items billed again CMS 1500 Plans.

WITS was updated to the 17.8.1 release on December 30, 2014. When updated in Idaho-Mountain and Idaho-Pacific, the top left portion of your screen will say 17.8.1.
