

## WITS Changes – 18.0.2 Release (SUD)

1/7/2016

In the 18.0.2 Release 3 bugs were repaired in WITS. Below are a summary of the errors and the resolutions of the problems.

- 1) Staff Members Search: Client Query Service code need to be fixed. **Resolution:** Updated the Client Query Service code to execute a Fetch via the staff member repository.
- 2) GAIN: Can't connect to GAIN ABS in 18.0. **Resolution:** The error message 'The GAIN system does not have an agency that corresponds to your Agency.' no longer occurs upon sync.
- 3) H837: The H837 claim item detail view in 18.0 has several duplicate segments. **Resolution:** To resolve a formatting issue introduced in 18.0, claims will no longer be duplicated for each agency.

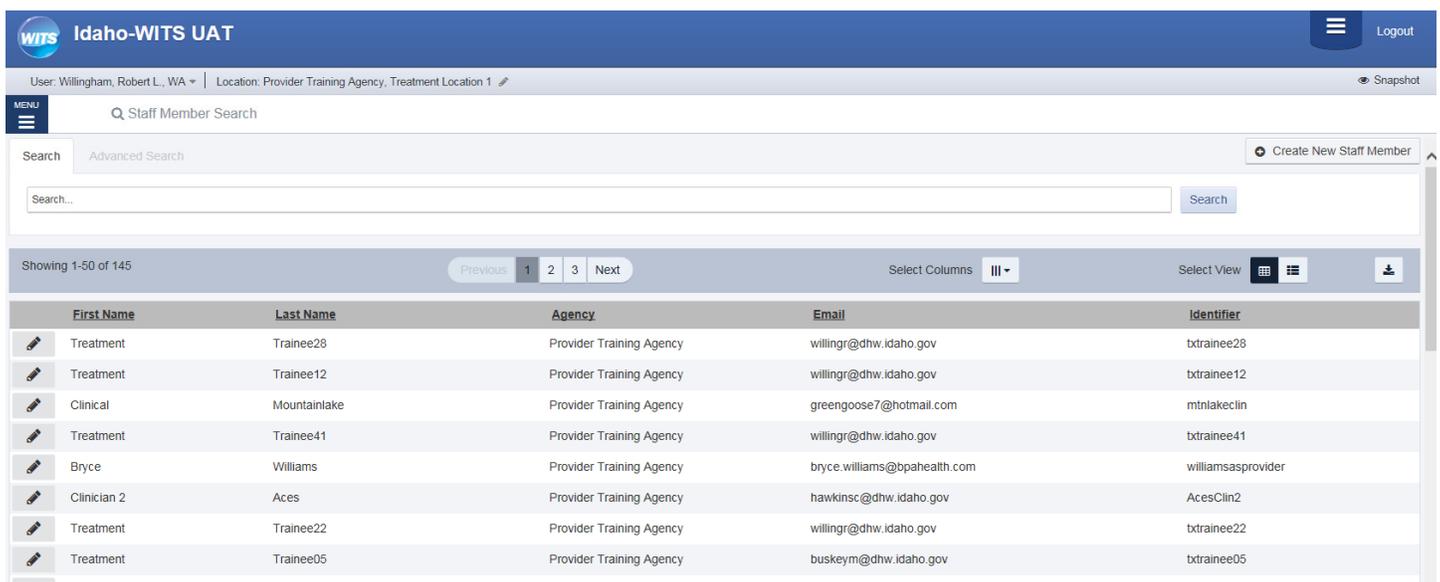

Below you will find a summary of the change to WITS for the 18.0.2 release (which took place January 9, 2016). When these changes are made in Idaho-Mountain and Idaho-Pacific, the top left portion of your screen will say 18.0.2.
